.10"

FRONT

BACK

Safety Area

Keep text, logos, and barcodes inside the pink dashed line.

Trim Line

The blue line is the final cut size of the key tag.

Bleed Area

Extend backgrounds and images to the purple bleed line.

IMPORTANT INFORMATION

- Finished size: 2.125" × 1.125".
- Hole diameter: .1875".
- Keep all text, logos, barcodes, and other important content inside the dashed safety area.
- Extend background colors and images to the purple bleed line.
- Preferred file types: AI, PDF, EPS, or SVG. PNG/JPG accepted at 300 DPI minimum.
- Use CMYK color mode when possible for more predictable print color.
- Outline all fonts and embed linked images before sending final artwork.
- Keep artwork in separate layers when possible so production adjustments are easier.
